FABIAN BACHMAYER

Freelance Full Stack Developer Vienna, Austria

bachidev.github.io | github.com/BachiDev | +43 699 17134810 | bachmayer.fabian@gmail.com

Summary

A results-driven Freelance Full Stack Developer with extensive experience in the software industry, specializing in a wide range of services including **Web Development**, **Database Management**, and **UI/UX Design**. With a solid background in **Telecommunications** and **AI Training**, I am adept at contributing to all phases of the software development lifecycle, from initial concept and design to deployment and maintenance. My goal is to leverage my expertise to create robust, efficient, and scalable software solutions.

Key Skills & Technical Stack

Frontend: React, Next.js, Angular, Flutter, TypeScript, JavaScript, HTML5, CSS3, Tailwind, Bootstrap
Backend: Node.js, Java, Spring Boot, Hibernate, Swagger, Python
Databases: PostgreSQL, MySQL, Firestore
Cloud & DevOps: Google Cloud, Firebase, Supabase, Vercel, Render, Git, Docker, CI/CD, Turbopack, Gradle, Maven
Testing: JUnit, Mockito
Methodologies: Agile, Scrum, BPMN
Other: Windows (CMD), Linux (Shell), LaTeX, R, MS Office

Professional Experience

Freelance Developer & AI Tutor | Remote
2023– Present

- Developed a full-stack **authentication system** and integrated the **Viva Payments API** for secure transactions.
- Contributed to the training of **large language models** on different platforms, helping to refine and improve AI performance.
- Automated a workflow for an **AI Phone Agent** using ElevenLabs and Zapier to streamline communication and data management.

Full-Stack Developer | spusu / Mass Response Service GmbH
2021 –2022

- Developed and maintained core telecommunication **billing system** functionality, handling large-scale data and complex business logic.
- Implemented a new installment **payment method, cashpresso**, into the online shop to provide customers with flexible payment options.
- Implemented a B2B **invoice mailing system**, which automated invoice generation and delivery.
- Integration of an **API for an exchange rates** management tool, connecting to the ECB Statistical Data Warehouse.

Portfolio Projects

(See full portfolio with live demo and source code at bachidev.github.io/my-portfolio)

CRM Demo *A full-stack CRM application with a RESTful API and PostgreSQL database, built to showcase modern web development practices with a focus on clean microservice architecture and robust deployment.

Tech Stack: Angular, Spring Boot, Java, PostgreSQL, Docker, Gradle, Swagger

Firebase Webstore *A full-stack e-commerce platform featuring user authentication and secure payment processing via Stripe, utilizing Firebase Cloud Functions and Webhooks for real-time data synchronization. Handles one-time payments as well as subscriptions.

Tech Stack: Next.js, React, TypeScript, Firebase, Firestore, Cloud Functions, Stripe, Tailwind CSS

Weather Dashboard *An interactive frontend application that displays real-time weather data and forecasts from the Open-Meteo API.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS

Education

Technikum Vienna, AT | Business Informatics*, 2018 – 2022*

- Completed all coursework, gaining extensive knowledge in software development and system architecture.

TU Wien, AT | Technical Mathematics*, 2017 – 2018*

- Studied C and C++ programming within the curriculum.

Federal Civil Service*, 2016 – 2017*

Business Academy Donaustadt*, Graduated 2016*

Languages

- German (Native)
- English (Professional Working Proficiency)
- Spanish (Basic)
